About me

I am a very passionate person for the things I do and a bit of a perfectionist. I always strive that my work has the best presentation and exceeds the expectations of others.

I am always willing to learn something new and gain experience from the projects I am involved in.

I find that I adapt quickly to new or unfamiliar situations and can tolerate work under pressure.

Some things I like to do in my spare time are reading about new technology, playing video games, and watching science fiction series / movies.

Skills

- Knowledge of the programming languages: C (Intermediate), Java (Intermediate), Python (Intermediate) y JavaScript (Basic).
